中文品名	二極體		
詳細規格	<div>1.廠牌：POSEICO</div> <div>2.型號：AR904P25</div> <div>3.平均順向電流：1230A</div> <div><p>The technical drawing illustrates the physical dimensions of the diode component. It includes an isometric view at the top, a side view in the middle, and a top view at the bottom. The side view shows a cylindrical component with a central pin. Key dimensions are labeled: an outer diameter of $\phi 52$, a height of 26 ± 1 mm, an inner diameter of $\phi 38.5$, and a maximum outer diameter of $\phi 59 \text{ max}$. The top view shows a circular base with a central pin and a small rectangular feature on the right side, labeled with dimensions $\phi 3.5 \times 3.5$ (both sides). Below the drawing, the unit is specified as mm with a tolerance of ± 1.0 mm, and a note states that the image is for reference only.</p></div> <div>單位：mm，公差± 1.0 mm。</div> <div>圖片僅供參考</div>
